Process : Import the Data into the Database

For table 3. emp_other_details

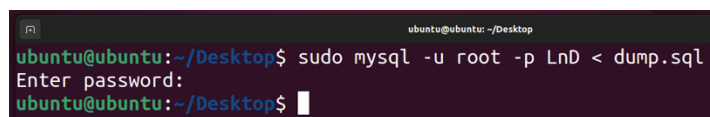

To import the Database, Download the dump.sql file

Command: `sudo mysql -u root -p LnD < dump.sql`

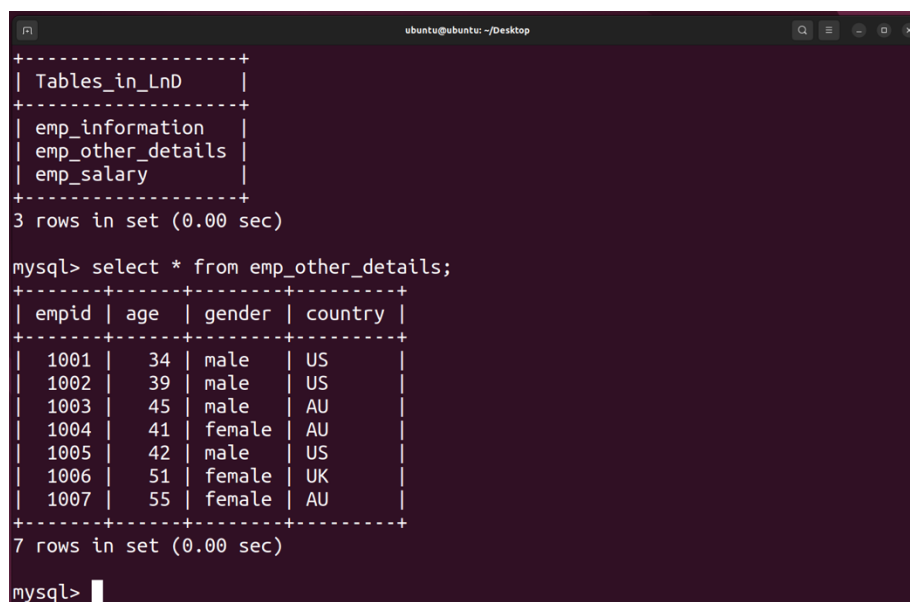

To View the Database:

`SHOW TABLES`

`SELECT * FROM emp_others_details`

```
ubuntu@ubuntu: ~/Desktop
ubuntu@ubuntu:~/Desktop$ sudo mysql -u root -p LnD < dump.sql
Enter password:
ubuntu@ubuntu:~/Desktop$
```

```
mysql> show tables;
+-----+
| Tables_in_LnD |
+-----+
| emp_information |
| emp_other_details |
| emp_salary |
+-----+
3 rows in set (0.00 sec)

mysql> select * from emp_other_details;
+-----+-----+-----+-----+
| empid | age | gender | country |
+-----+-----+-----+-----+
| 1001 | 34 | male | US |
| 1002 | 39 | male | US |
| 1003 | 45 | male | AU |
| 1004 | 41 | female | AU |
| 1005 | 42 | male | US |
| 1006 | 51 | female | UK |
| 1007 | 55 | female | AU |
+-----+-----+-----+-----+
7 rows in set (0.00 sec)

mysql>
```
